

11th October 2018

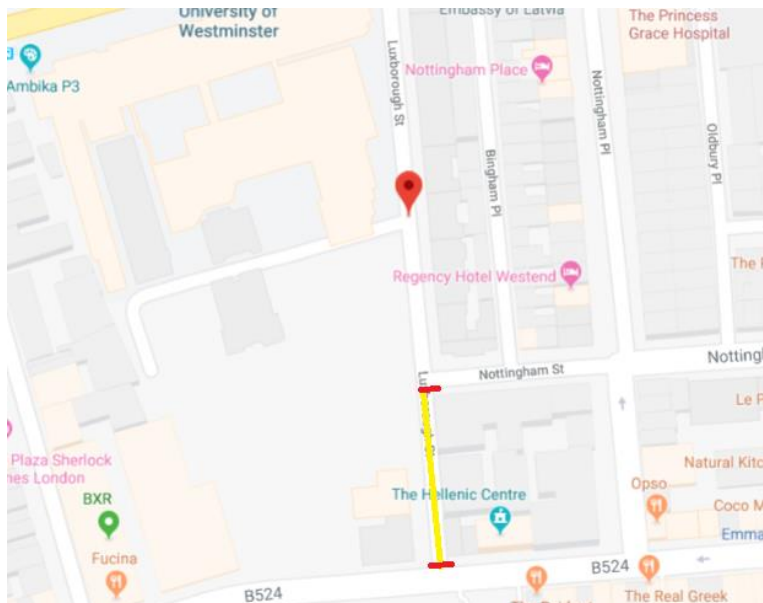

Dear Neighbour,

Play Streets event in Luxborough Street on Thursday 18th October 1pm to 4pm

We would like to invite you/inform you of a Play Streets event taking place on Thursday 18th October from 1pm to 4pm in Luxborough Street, which will be closed temporarily during this time.

Play Street events are a wonderful way to get children active and making friends with other children in their neighbourhood. They also make streets friendlier and safer for residents of all ages. Westminster City Council is encouraging more activities such as Play Streets to raise awareness of air quality in the area.

On Thursday 18th October we are planning a range of activities for all ages including Dr. Bike cycle checks, air quality activities and information about our other Low Emission Neighbourhood activities and plans. To allow the event to take place we will be closing temporarily the southern end of Luxborough Street which is in the Marylebone Low Emission Neighbourhood – please see map below.

We do hope that you will come along and that the temporary road closure does not inconvenience you. If you do have any access requirements during 1pm and 4pm on the day, please contact Carla Leowe, Road Safety Officer with any questions in the first instance; email RoadSafety@westminster.gov.uk or call 020 7641 4095.

Yours faithfully,

Marylebone Low Emission Neighbourhood Team
